Professional Summary

- Possess 2+ years of hands-on experience in manual and automated software testing, with a focus on API testing, UI regression, and functional testing.
- Proficient with JavaScript, Node.js, and Playwright Test (@playwright/test) for building reliable UI test automation frameworks.
- Experienced with Playwright, Selenium WebDriver, Postman, Pytest, SQL, and Requests, delivering robust and maintainable automated test suites.
- Reduced regression testing time by 55% through automation, significantly enhancing release efficiency.
- Experienced in Agile/Scrum environments, skilled at defect triaging and working cross-functionally to improve product quality.
- Strong foundation in technical support and systems troubleshooting, with proven client satisfaction and retention.
- Permanent Resident of Canada.

Work Experience

Quality Assurance Specialist

Empowered Futures – Calgary, AB (Remote) | Dec 2024 – Present

A non-profit social enterprise focused on community impact solutions.

- Designed and executed manual and automated test cases using Playwright and OOP principles to improve test maintainability.
- Conducted UI testing using Playwright and JavaScript, ensuring reliable user interface functionality and consistent user experience across different scenarios.
- Reduced manual testing effort by 30% through automation improvements.
- Utilized Microsoft Azure services to manage test environments and support continuous integration and deployment.
- Collaborated with developers and product teams to implement test coverage strategies.

QA Analyst

AirGear – Lviv, Ukraine (Remote) | Apr 2024 – Dec 2024

Technology firm providing e-commerce solutions for consumer electronics.

- Automated 85% of regression testing using Selenium WebDriver and API scripts, cutting release preparation time.
- Developed and maintained end-to-end test documentation, including test cases and checklists.
- Performed cross-browser testing and performance testing, identifying and reporting critical bugs pre-deployment.
- Collaborated in an Agile Scrum team, ensuring the timely delivery of high-quality releases.

Junior QA Analyst

Computer Universe – Lviv, Ukraine | Dec 2020 – Nov 2021

- Created detailed test cases for web services and APIs, ensuring broad functional test coverage.
- Performed API testing with Postman, validating server responses and documenting endpoints in Swagger.
- Used SQL to verify data accuracy and consistency in backend databases.
- Conducted usability testing to identify areas for improved user experience.
- Logged clear and reproducible bug reports in Jira, facilitating faster issue resolution.

Customer Service & Technical Support Specialist

TP Service – Lviv, Ukraine | May 2017 – Sept 2020

- Delivered technical support to 1,000+ clients, earning a 90% customer return rate.
- Installed, configured, and optimized systems (OS, drivers, software) to ensure smooth performance.
- Diagnosed and resolved hardware/software issues, escalating complex cases as needed.
- Maintained high customer satisfaction through clear communication and tailored solutions.

Education & Certifications

Computer Science Diploma

Stryi College, LNAU – Ukraine | Jan 2011 – Jan 2015

QA Course (Online)

Skill-Up | Jan 2024 – Apr 2024

Comprehensive training in manual testing, bug reporting, test case creation, and Agile methodologies.

Postman: The Complete Guide - REST API Testing

Udemy | Feb 2024 – Mar 2024

Hands-on RESTAPI testing using Postman and test automation scripting.
